THE UNIVERSITY OF BRITISH COLUMBIA

University of British Columbia - Okanagan Campus Irving K. Barber School of Arts and Sciences (Job ID 19808) PHYSICS - TWO Assistant Professors

The Irving K. Barber School of Arts and Sciences at the University of British Columbia, Okanagan Campus, invites applications for two tenure-track appointments at the rank of Assistant Professor, to begin as early as July 1, 2015. The positions will be held in Unit 5 in the Barber School (<http://web.ubc.ca/okanagan/ikbarberschool/welcome.html>).

UBC is consistently ranked among the world's top 40 universities, and the UBC system comprises two distinct and autonomous campuses in the province of British Columbia - one in Vancouver and the other in Kelowna. Situated in the Okanagan Valley in the southern interior of the province, Kelowna is experiencing rapid growth and is considered one of the most desirable regions to live in Canada.

The Physics Department at UBC Okanagan is part of a dynamic and highly interdisciplinary unit of more than 20 faculty members in the areas of Physics, Mathematics, Computer Science and Statistics. The successful candidates will each have a PhD in Physics, a strong research record, and demonstrated excellence in and commitment to undergraduate and graduate teaching. Preference will be given to candidates specializing in any areas relating to (i) radiation oncology or imaging medical physics, (ii) molecular imaging as relating to radiation oncology or (iii) computational biophysics or medical physics. The Unit is developing a medical physics graduate program under a joint collaboration with the BC Cancer Agency - Centre for the Southern Interior (BCCA-CSI). The program has active research in radiation oncology physics, medical imaging, biological applications, and data science, and offers a suite of graduate courses. Contribution to the research mandate of the department, including the continued development of the medical physics graduate program and the ability to integrate with the BCCA-CSI and related UBCO faculties, is expected. Further information can be found at <http://medicalphysics.ok.ubc.ca/welcome.html> and <http://physics.ok.ubc.ca/welcome.html>. Teaching is expected in all areas of physics at the undergraduate level and within medical or biological physics at the graduate level.

How to Apply:

Applicants should provide a cover letter, curriculum vitae, evidence of teaching ability (e.g. course evaluations), research statement, and the names and contact information of three referees. Applications are received online at <http://www.hr.ubc.ca/careers-postings/faculty.php>. Please direct any questions regarding the posting to recruitment.bsas@ubc.ca, and put the competition title in the subject line of the e-mail.

Applications will be reviewed beginning **January 12, 2015**. The process will continue until the position is filled.

All appointments are subject to budgetary approval.

UBC hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. We especially welcome applications from members of visible minority groups, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations or gender identities, and others with the skills and knowledge to engage productively with diverse communities. Government regulations require that Canadians and permanent residents of Canada will be given priority.
